

This profiling machine doesn't just help you make good reeds; it gives you something much more valuable (yes, there is something more valuable than a good reed!), and that is peace of mind. Gone is the worry that I won't have a decent reed for an important upcoming concert as I know with the help of the Bucher profiler, I will come up with something. *It's definitely worth it.*

Aisling Casey, Principal Oboe with The Netherlands Radio Philharmonic Orchestra

*Stressfree
reedmaking!*
