

Bocals for cor anglais

Bucher bocals come in three types:

Type A rather conventional

Type B more innovative

Nothing **Nothing** is a brilliant bocal, very hard and of complex crafting.

Its name refers to Siegfried's victorious sword in Wagner's Ring of the Nibelung, which also possesses these qualities (Act I, Siegfried).

Each type comes in 3 bore variations: narrow, medium, wide.

Additionally, a short S version of the medium and wide sizes of all types is available.

	bore	model	
		long	short
type A	narrow	A1	—
	medium	A2	a2
	wide	A3	a3
type B	narrow	B1	—
	medium	B2	b2
	wide	B3	b3
Nothing	narrow	N1	—
	medium	N2	n2
	wide	N3	n3

The bocals are gold-plated.

You're welcome to test the bocals at our studio in Hünenberg by appointment.
